

Received March 23, 2020

To our grantees--

We know that COVID-19 has created disruptions in your organization and in the communities you serve. Please know that we are committed to you and support you. We understand that you are facing new challenges amidst the quickly changing reality of COVID-19. We hope that the following can be of some help to you during this time:

* Any reporting requirements with a due date of 12/31/2020 or before will automatically receive a **six-month extension**. There is no need to take additional action on your part.

* If the work you were hoping to accomplish has been disrupted or impacted due to current conditions, then you may reallocate Cal Wellness grant dollars to help you address the crisis.

* If you would like to request to **extend your grant period**, please email grants@calwellness.org and we'll connect you with the staff managing your grant.

If you have any questions at all about processes or grantmaking, please email grants@calwellness.org. (Our offices are currently closed but we're working remotely and available to you. Learn more [here](#) about the steps Cal Wellness is taking to change how we work during the current crisis.)

We are closely monitoring the COVID-19 situation and are engaging in a range of efforts to help California's most vulnerable communities. We will continue to share with you any new developments.

Thank you again for your commitment to the communities you serve. We are honored to work with dedicated partners like you and your staff.

Warmly,
Amber López Gamble
Director of Grants Management
