**Subject:** S2S Grants System Upgrade

A maintenance update was performed Wednesday evening to the S2S Grants (Cayuse) system. While, most of the changes that were made will not be visible to end users, a couple of changes that end users should be aware of are:

- Full support of Department of Education Funding Opportunities  
All Grants.gov eligible Department of Education funding opportunities are now supported. Grants.gov eligible applications should now be prepared using S2S Grants rather than Adobe forms.
  
- NIH Validation Updates  
The false error regarding the cover letter that was being generated for NIH applications has been eliminated.

Users do not need to take any special action on applications that were in-process prior to the upgrade.
